

CHILDREN POOL ADMISSION STANDARDS

Ages 4 months to 13 years

| Age | Requirements | Guardian : Child Ratio | Wristband |
|--|--|--|---------------|
| 4 months to 5 years | May not be admitted in the swimming pool unless they are always accompanied by a parent/guardian at least 16 years or older responsible for their direct supervision and who must be actively participating within arm's reach at all times. | 1:2 | Red |
| 6 to 13 years who <u>did not pass</u> the swim test | Always accompanied in the water by parent/guardian 16 years or older Are restricted to shallow end of Main Pool and Wading Pool. | 1:4 or 1:6 if all non-swimmers are wearing PFD | Yellow |
| 6 to 13 years who <u>passed</u> facility's swim test | No Guardian supervision required. | Parent must be in the pool area but not required to be within arms reach of child. | Green |

Facility Swim Test: Participant must swim two widths of the pool without goggles, on their front without stopping or touching the bottom. The participant must demonstrate the ability to put their face in the water at least once. The participants must show strong forward movement, the ability to take breaths and not touch the bottom of the pool. Please note anyone, regardless of age can be subject to a swim test at the lifeguard's discretion.

MEDICAL CONDITION WARNING:

High-risk patrons must be in a ratio of 1:1. High-risk patrons have a condition or illness that may put them at risk in a pool, such as prone to seizures, heart or fainting conditions. This includes people who are unable to control their behavior or impulses, and require direct supervision by an adult guardian solely dedicated to monitoring them while in the pool and change rooms. The supervisory ratios for groups of high-risk people will be determined by pool staff based on the specific needs of the people and their associated risks. Groups should be encouraged to call before planning an outing. High-risk individuals may be asked to wear a PFD for further safety precautions.
